We Expect the Unexpected. We're Here for You!

May 2026

Dear Faithful Friends,

KNOW WHAT?

Since the infamous Roe v. Wade decision in 1973, it is estimated that more than **65 million abortions** have taken place. On top of the staggering loss of life, the impacts of these deaths on the mothers and fathers who participated in them is both immeasurable and profound. Post abortion syndrome has been found to be present for many post-abortive women and men, which can include grief, guilt, shame, anger, anxiety, nightmares, flashbacks, depression, suicidal thoughts, self-destructive tendencies (eating disorders, substance abuse, emotional withdrawal, etc.) as well as ongoing relational difficulties. Many individuals do not even realize the challenges they face may relate back to their abortion experience. At LifeLine, we often see clients who are seeking support 10, 20, 30 or even 40 years after their abortion - sometimes a lifetime of suffering and pain.

NOW WHAT?

LifeLine offers post-abortion support for women, men and family members associated with an abortion, whether the abortion was very recent or decades ago. Our post abortion facilitators provide free, confidential services, including one-on-one support and a 12-week study, **SaveOne**, designed to walk clients through the **healing** and **restoration** process.

Sometimes clients hesitate to pursue post-abortion healing, whether it is due to fear of facing this part of their life or because they believe they deserve to suffer with the pain and the shame of their sin. Other times they believe, because they are Christians, that they "know" they have been forgiven and should be "okay" now. However, we have found that clients frequently report feeling an enormous weight has been lifted from their shoulders after completing the SaveOne study, often sharing their newfound freedom and peace.

If you or someone you know has had or has been party to an abortion, please share this life-changing opportunity to receive healing and freedom. All services are free and completely confidential.
